MMS Manufacture Flashings & Trims in a wide range of materials; Pre -coated Plastisol, PVF2, Coated Steel, Aluminium, Galvanised Steel, Stainless Steel 304 or 316L grade. Also available in Mild Steel options, RAL PPC or painted finish.

- **State of the art computerised controlled Folders and Guillotines**
- **Flashings & Trims factory-formed in a gauge, appropriate to the end-use application**
- **Precisely matched colour and finish quality is assured**
- **Flashings can be formed up to 4000mm long to suit every profile**
- **Pre-fabricated or welded corners, butt steps, safe edge options**
- **Direct computerised input; we can use AutoCAD Drawings of Flashings & Trims to formulate cutting and folding for bill of materials and quantities**
- **Possible to cut and fold up to 6 mm thick Sheet**

MMS can also provide custom fabrications to meet the most exacting requirements.

Technical Data

Gauges range from;

- ✓ 0.5mm to 0.9mm (pre-coated steel)
- ✓ 0.7mm to 2mm (galvanised steel)
- ✓ 0.9mm to 3mm (aluminium)
- ✓ 6mm sheet options

Prices are per linear metre, based on required girth, bends and safe edges. Various joint methods are available; however internal or external butt straps are extra.
